FROM CHARLES.

Dear Toby,

As promised here is the fax that I intercepted in Mail boxes SA Javea that was picked up by Kevin Concanon good hunting, it's obviously important or he wouldn't of beat me up when he discovered I had seen it, he doesn't know I have a copy! Kevin was involved with several other people trafficking, one guy is called Chris Fairfax his phone numbers are 908 962 521 Mobil and Home 577 1646, Chris had 6 Gold credit cards in his name that were not signed I saw them, he and Kevin are partners and they have a girl called Clair (Who runs a bar they own) This is called "Try Again" in Javea Park Javea. She meets and interviews and tapes (Beware) people who want to buy drugs she has a loaded gun on the premises, she is very crazy and think she's a gangsters moll, Chris is sleeping with her but has another girlfriend also there's a bodyguard type called Mark Lovatt I've enclosed a copy of his passport, D.O.B.25/11/69 Born in Wellington he works in the same bar There was a guy there before called Steve who also worked for Kevin he dahed back to England apparently he had some trouble? Remember Fred Buttler? the Gernsey chap, well he was buying from Chris Fairfax, Kevin was supplying it. All this is happening right now, now for some background I found out, Kevin buys coke from Robert Hoffman thats all I know he's based in Athens Greece or was, Kevin is still in contact with Russell John Williams 9 Gwenfron Terrace, Rhonda, CF 40 1NL South Wales. Russell does for Kevin.

The reason I know the Try Again Bar is because years ago it was Terrys Car Rental my friend Roy Lewis worked for Kevin (He got 6 years with 40kg of kevins gear) his car was rented from guess where? Hee, intelegence work eemm! also the Feders who owned (supposidly) Terry's car rental had to leave, their son Julian Feder got caught doing a run for Kevin and did a runner on bail from Spain, he was Kevins sons mate

Now Kevin is using the same place with a differen front "Try Again" he's a bit of a piss taker also not as bright as I thought he would be, Oh! Robert Hoffman is columbian, the number of many contacts were kept at russells dads garage and we're marked as car mileages, clever hey?

Background Kevin Concanon had a guy cabod Martin (from Russells town) to organise trafficking his wife Sue organised finances, (Kevin owns the Javea Hotel Martin stayed there when he got out of prison if you want more info on the Hotel contact me) below them came Derik Hales who ran a guy called Rob and Paddy and Andrew these four got nicked as a result of my info at Gatwick. Kevin also delt direct with Russell who had Dean Rosser (Also from Russells Town) a guy called Mark (also from Russells town) and Glen working Derik Hales, Kevin Concanon Martin and Glen were all in prison togther and Martin comes from the same town as the rest, so you can see how Kevin operates he picks someone out and they recrote his help!

Carn't you do somthing like CENTEC did in the states and get Kevin for carrying on a continuing criminal enterprize (carries life in the US) if you can I'll testify and so will Roy Lewis possibly others of course first you'll have to get somthing new on him. Kevin used to buy his puff from a guy called 'Nesta' who is now supposedly in Gibralter.

Now on to Finances, I've sent you by Mail two recipite totaling £25 one's for petrol the other a toll charge on the motorway, this was from a while ago when we last met on top of this I have about £50 worth of expences from doing the Kevin Job, I don't have receipts but I have spent more than that plus the cost of this fax. I don't have much money as you can imagine so if you could send it to me or get Jeff to give it to me I would be grateful, I hope the info is useful to you I'll let you know when I get somthing else.
take care and good luck.

regards
