Date: 10/03/04

Dear Sir or Madam:

We believe someone trying to disrupt our business by continually sending us viruses is targeting us, could you please investigate this.

Please find attached Disc containing 11 Viruses that are being sent to us all the time, we would like the paths traced so we can identify the culprit and press charges and sue them. They all appear to have the same path.

Kind Regards

Gary Owens

The Metropolitan Police Service Computer Crime Unit deals with crimes such as hacking and virus writing. They can be contacted by calling the
Crime Management Unit on: 020 7230 1279 or 020 7230 1280.

Hi

We have a client who we believe is involved in a computer crime, we built a web site for her and all of a sudden there is many thousands of pounds going through the site and the incredible part is that all the money comes from the states and all the delivery addresses are in Ghana west africa, we have been getting calls that have no purpose for a few months from we think Ghana, we think the two are connected in an attempted set up of me, as i have had dealings with organised crime, if possible we would like you to check it out, the woman concerned claims to be an ex IBM executive but i am unconvinced, her name is Jackie Harrisher number is 01539 621639 address 4, high oaks, marthwaite sedgbergh LA10 ER, the website is www.xpat-world.com

I told her that if she did not report it to the fraud squad at worldpay we would switch her site off, worldpay have suspended her account pending a six month period to see if the transactions are genuine and now she wants us to switch her to Paypal so she can carry on getting the orders.

This is lunacy and the orders are still flooding in, I want to protect myself, what is the best thing to do?

I will happily give you copies of all the orders if you need them.

The phone numbers on them dont ring or no one answers and no one responds to the email addresses but she still wants to get more orders!

I suspect some local people to be involved who have the know how of how to do this, one guy called Frances Donaghue (not sure on the spelling but i can get you a copy of his passport if needed.)

This guy has been involved in fraud and has the facilities to do this. He is also involved in organised crime and the uk mafia.

Can you tell me who to contact and what to do please.

Kind regards

Gary Owens

Dear Mr Winterton

I have spoken to your constituency office and they asked me to write to you at this address.

I have had some one or some organisation persecuting, intimidating, harassing and stealing from me for close on ten years, I have been to the police many times and they have failed to act, I have been driven to the point of bankruptcy by what ever is going on.

I believe the police know what is going on but wont inform me or wont act against the offending party, this to me would indicate that it was the mafia or the masons (who are involved) who are behind it. Until this started I was the CEO & Chairman of a company that became worth more than a billion pounds, my share of this would have been 200 million that was stolen from me, plus several other companies I have started since that have been infiltrated and wrecked worth millions of pounds.

I have a young child and have reached the point where as far as I can see there is no law in the UK, my wife is in tatters mentally as am I, I am considering committing terrible acts that will take me away from my family either in prison on the run or worse. Its as simple as this, I cant and wont take any more, I have had my life threatened and I rule nothing out in what would be an all out retaliation.

I want to know if I can bring a criminal prosecution against the police and the home office for failure to protect my family and failure to act against crimes that have been committed against me. I would want the individual officers who I have met to be criminally charged for complicity with criminal acts as well as Humberside, Cheshire, City of London, Scotland Yard, NCIS police. As well as issuing a writ for the 200 million I have lost.

Can you help in any way please? I have no where left to go accept to fight, and as I know that both mafia and masons are involved it would have to be outright war, I don't want to go this route and you are the only hope of averting what will become a national press issue overnight and probably the end of my life. I swear I will act unless I am compensated for the damage that has been done to my family and I. I have nothing left to loose, but the people behind this have a lot to loose, they are big and I am small, I will be hidden and they will be exposed. I have a long list of mafia and mason personnel and targets who have been involved in this.

The police have already been informed of this by me, in clear terms.
I will wait a period of time for a response from you, and hope you are as good as the people who said I should contact you, say you are. I have also been encouraged to contact Jack Trickett and The Chief Constable, but under the circumstances would you!?
Is this the Britain we live in today run by illegal organisations that can do as they please because the government are to weak to act, it stinks Mr Winterton.
Kind Regards

Gary Owens

Date: 09/05/06

Dear Mr Charlton

I received your letter dated 05/05/06, in your letter you state that you are to get someone to contact me, that is not acceptable due to the amount of times the same thing has been done with no results. I require the meeting to be videoed and sound recorded and in the presence of my legal representatives. As it is not only the police force you work for that is involved in this matter, but the home office, I will be looking to this end for a liaison. I am at present waiting to see what my MP advises as the way forward.

Kind Regards

Gary Owens

Gary Owens.
