I've just tested your logins, and they look to work without any issues.
Please note that there are 2 different login pages, one for WHM (reseller access) and one for cPanel (cpanel access).

<https://vmres10.web-servers.com.au/whm>
<https://vmres10.web-servers.com.au/cpanel>

You'll need to use your apcgeniu user to login to WHM, and your own passwords to login to the individual cpanel account.

If you're still having issues logging in, please give us a call and we can help you over the phone.

Kind Regards,
Josiah H - PANTHUR Pty Ltd.

Dom Saunders I was targeted in bondi when i was there, it was late 2015. I believe ASIO or equivalent stole a bag, but as i was due to leave three days later, the bag and my passport were dumped in plain sight 100 yards away. Everything else was taken.

Monique Wakelin Had some awful stuff, that indicates intelligence service types, yet not sure who & it's difficult to get the full picture of course. I don't know any others much in the area that have experienced similar & are cluey about all this. I've played bait a bit before to try & work stuff out, yet it's dangerous & am not in a good position to do so. Will have a think about possibilities.
